May take only 1 capstone laboratory per semester.

**Total Credits** 

#### **Special Notes on Core Curriculum Requirements**

Psychology majors may not take courses designed for non science majors (including BI-122, BI-124, BI-123, BI-126, BI-140, , BI-130, PC-110) as part of the Natural Science Core Requirement. They must take 2 sequenced sciences e.g., BI-183/BI-184 (no lab required), CH-131/CH-132 ,or PC-185/PC-186.

For the mathematics core requirement majors should take MA-105 Elementary Applied Math and MA-106 Introduction to Probability and Statistics.

#### **Optional Psychology Degree Concentrations**

Students majoring in Psychology may choose (but are not required) to pursue a concentration in clinical psychology or forensic psychology. Concentrations entail 15 credits of coursework that allow students to focus on an area that they might be considering for graduate study and/or a future career. Pursuing a concentration does not affect the core or the total number of credits required for the psychology BS degree.

#### **Concentration in Clinical Psychology**

#### **Special Notes for Psychology-Education Double Majors**

- <sup>1</sup> ED-170 Child and Adolescent Psychology may replace PS-230 Childhood and Adolescence.
- <sup>2</sup> ED-301 Assessment may replace PS-305.
- Double majors must plan early for the capstone laboratories since students may not student teach and take capstone laboratories at the same time.
- If you take PS-235 Life Span Development, you may not take PS-230 Childhood and Adolescence or PS-240 Adulthood and Aging.
